An abstract painting border surrounds the central text. It features a mix of colors including purples, blues, greens, and greys, with a textured, layered appearance. The colors are blended and layered, creating a sense of depth and complexity.

Monette Satterfield is an artist, author and modern-day muse – not as fickle as the ancient muses but still dangerous...

Her signature distressed and layered style is directly influenced by the Japanese concept of Wabi Sabi and results in works with many layers in conversation and complexity.

In a delicately balanced point and counterpoint imaginative dance, she creates rounded forms pulsing with life evolving from the ageless surfaces as if arising from primordial seas.
